Accessing ParentsWeb

RenWeb School Management Software gives you, the busy parent, an opportunity to get more involved in your child’s academic progress and future success – all via the Internet!

RenWeb’s ParentsWeb is a private and secure parents’ portal that will allow parents to view academic information specific to their children, while protecting their children’s information from others. You may view your child’s grades, attendance, homework and conduct, as well as other useful school information. You can also communicate with teachers and other school staff online whenever necessary. All you need is an Internet-capable computer.

Here’s how to access our easy-to-use RenWeb ParentsWeb:

• If you accessed ParentsWeb last year your credentials should still work. If you have forgotten your credentials when you go to login click Forgot Username/Password? and follow the instructions. If none of this works contact Pam Autry in the Front Office.

• If you have not accessed ParentsWeb, you must use the email listed in your RenWeb record. If you did not provide the school with an email address please email one to Pam Autry at pautry@saintbenedictschool.org. Each parent should have a unique login! If you prefer not to have an email in your RenWeb record you may contact Pam and ask her to set you up with a username and password independent of email. Please note that many important school communications are sent via email.

• In Internet Explorer, Firefox, or Safari, go to www.renweb.com and click Logins.
